(54) OIL ABSORBING AND SMOKE PROOF ALUMINUM SHEET USED IN IN-GRILL
NET UPPER PART OF GAS STOVE

(57)Abstract:

PROBLEM TO BE SOLVED: To safely execute cooking without soiling a net and a receiving tray in a grill with fish oil by suppressing smoke generated inside the grill of a gas stove.

SOLUTION: An oil absorbing and smoke proof aluminum sheet to be used in the in-grill net upper part of the gas stove consists of three layers where an absorption paper sheet or an absorption agent 2 with heat resistance property is pinched between an upper aluminum foil 1 with plural small holes on the surface and a lower aluminum foil 3. It is acceptable that an aluminum foil where an upper part and a lower part with plural small holes on a half surface are integrated is folded so as to be made into a bag shape.

LEGAL STATUS

[Date of request for examination] 30.04.1997

[Date of sending the examiner's decision of rejection] 21.12.1999
